

WHO WE ARE

RayBen Diagnostics, a wholly Ghanaian owned state of the art Laboratory, has extensive experience in the medical field in both Ghana and The Netherlands. RayBen brings technical and practical knowledge and training expertise in support of the Health Care System. The Laboratory was set up in 2013 as an International Medical Diagnostic Center between Ghana and the Netherlands Government to enhance laboratory medicine and the quality of health care delivery in Ghana, and West Africa.

GOAL

To provide quality laboratory services in a timely, accurate, and efficient manner through the use of ultra-modern equipment and technical expertise.

VISION

To be the focal point of quality Medical laboratory and imaging training for Ghana, and beyond.

MISSION

To provide leadership in all aspects of Laboratory Medicine, including cost-effective Laboratory Services, Education, and Research, with the pursuit of excellence, encouragement of Innovation, and adherence to exemplary professional standards. We will strive by continuing to grow and adapt in order to consistently meet the needs of our community, patients, clients, and health care system.
